Hobbies : Drawing, Travelling, Reading,Cricket.

TECHNICAL SKILLS :

- HTML,CSS,JavaScript(JS),Bootstrap,Jquer, Ajax,React JS.
- PHP,SQL,Codeighniter3 (CI3),Codeighniter4 (CI4) , Laravel.

WORK EXPERIANCE:

PHP Developer (Jan2022- June2022).

1.Heurustic Technopark Pvt. Ltd.

- I successfully completed my internship in PHP .Where I actively contributed to the Vignesh Infotech project.

Junior PHP developer (June 2022 - July 2023).

2.Application Square Pvt. Ltd.

- I have contributed to the development of several significant projects, including an e-commerce platform for Sejal Online, a food redistribution system, a bus ticket booking system, and a tourism project with integrated payment functionality.

Senior PHP developer (Aug2023 - May 2024).

3.Techflux Solutions.

- I previously held the position of Senior Software Developer with TeamLeader responsibilities, where I successfully led a dedicated team on the Aqato project utilizing the CodeIgniter 4 framework. Additionally, I played an active role in the development of the CMMC project for Allied Mortgage Solutions.
I successfully developed a real-time chat application similar to WhatsApp, enabling seamless communication through features like instant messaging, media sharing, and group chats. This project showcased my expertise in backend integration and user-friendly interface design.

Full Stack Developer (Jun2024- Present).

4.Application Square Pvt. Ltd.

I currently serve as a Team Leader and Senior Developer, leveraging my expertise in building secure and efficient web applications. My contributions include implementing REST APIs with rate limitations and developing advanced role-based permissions in React and Laravel, ensuring secure and controlled access to action buttons such as Add, Edit, and

Delete. I specialize in creating robust security measures, including custom implementations alongside Laravel's XSRF and CSRF token protection. In my current role, I have worked on diverse projects, such as:

- **Pharmacy Exam Platform:** Developed a web application for students to take exams, preview results, and access their last two attempts, fostering better learning and evaluation processes.
- **Web Application for Operator Skill Journey:** Designed a solution for manufacturing companies to track staff progress from zero process to operational mastery. The system includes exam masters with filtering questions, result management for both admin and operator, and training sections to store documentation for continuous learning.
- **React + Laravel Web Application:** Delivered a custom-built application integrating email and WhatsApp services to enhance user communication workflows.
- Across all projects, I ensure a focus on secure architecture, seamless user experiences, and efficient performance, consistently meeting both technical and organizational objectives.

DECLARATION :

I hereby declare that all the information furnished in this application is complete and correct to the best of my knowledge and belief.
